Dear Mr Paffrath

RE: PREQUALIFICATION OF ROAD SAFETY AUDITORS

I am writing regarding prequalification of Road Safety Auditors.

The aim of this register is to have on record a list of suitably skilled and experienced consultants to undertake road safety audits. Eligibility for prequalification is based on adequately satisfying the following criteria:

- A. *(Senior Road Safety Auditor & Road Safety Auditor)*, a minimum of five years relevant experience in road design, traffic engineering, road safety engineering or other closely related road safety discipline;
- B. *(Senior Road Safety Auditor & Road Safety Auditor)*, successful completion of a road safety audit training course, approved and recognised by VicRoads or another State Road Authority;
- C. *(Senior Road Safety Auditor)*, participation in at least five safety audits of which at least three must be design stage audits.

Based on the information provided:

- Uwe Paffrath satisfies criteria A and B and will be registered on the database as a Road Safety Auditor.

Yours sincerely,

SAM PIRROTTA
SENIOR ROAD SAFETY ENGINEER
