Dear Trent,

VicRoads Road Safety Auditor Accreditation

Thank you for your letter to email dated 11 October 2010 requesting accreditation as a Road Safety Auditor.

I can advise that you meet the criteria for accreditation as a Road Safety Auditor and your details will be added to the existing VicRoads road safety auditor database.

Please note that accrediting an individual does not imply that the company he/she works for is prequalified to undertake road safety audits for VicRoads.

The auditor accreditation process is currently maintained by VicRoads, which is introducing a new accreditation management system for all practising road safety auditors in Victoria. This accreditation process is primarily designed to bring Victoria in line with national requirements as set out in Section 2.5 of *Austroads Guide to Safety Part 6: Road Safety Audit, 2009*.

An online VicRoads road safety auditor accreditation register is currently under development. ARRB group has been appointed by VicRoads as the new accreditation agency. The online register will provide the following advantages:

- online listing of all accredited road safety auditors in Victoria
- a search function for prospective clients wishing to engage a suitably qualified and experienced road safety auditor
- a public listing of past audits completed and of relevant professional experience for each auditor
- on-line application for Road Safety Auditor and Senior Road Safety Auditor accreditation
- auditors will be able to use the website to update their contact details and relevant experience.

In preparation for the future launch of the VicRoads road safety auditor accreditation register website, VicRoads will send a letter to your nominated postal address within the next few weeks requiring that you confirm your personal and professional information. This information will need to be returned to ARRB Group.

If you have any further questions please contact Andrew Zivanovic at ARRB Group on 9881 1637.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Andrew Zivanovic'.
